Summary

Software Developer specializing in **Flutter mobile development** and **React-based web applications**. Experienced in building **AI-powered applications**, integrating external APIs, and deploying scalable backend services using Firebase and Supabase. Skilled in developing cross-platform systems and implementing automated **CI/CD pipelines**, improving development and release efficiency.

Skills

Programming Languages: Dart, JavaScript, Python, Java, C++, SQL

Frameworks & Libraries: Flutter, React.js, Tailwind CSS, Redux, Bootstrap, HTML5, CSS3

Mobile Development: Flutter, REST API Integration, Cross-Platform App Development

Backend & Cloud: Firebase (Authentication, Firestore, App Distribution), Supabase, Edge Functions

Developer Tools: Git, GitHub Actions, Android Studio, VS Code, Postman

Experience

Flutter Developer Intern

February 2025 – July 2025

Asvix

Remote

- Developed a cross-platform healthcare mobile application using **Flutter 3.22**, enabling users to manage medications, schedules, and medical records within a unified mobile interface.
- Implemented an AI chatbot pipeline integrating the **Gemini API** through **Supabase Edge Functions**, reducing manual health information lookup time by approximately **40%**.
- Integrated **Firebase Authentication** and **Firestore** to support secure user login and real-time chat messaging, ensuring reliable storage of user health data.
- Engineered a **CI/CD pipeline using GitHub Actions** to automate APK builds and Firebase App Distribution, reducing manual deployment time by approximately **70%**.
- Implemented **speech-to-text** and **text-to-speech** features, enabling hands-free interaction with the AI health assistant and improving accessibility.
- Project Repository: github.com/Kuzhambu/MediBot-Flutter-App

Projects

Zentic – Visual Search Platform | *React 19, Vite, Tailwind CSS, Supabase*

- Developed a visual discovery platform enabling users to search and explore millions of high-resolution images and videos using the **Unsplash** and **Pexels APIs**.
- Built a responsive frontend using **React 19, Vite**, and **Tailwind CSS**, achieving a **90+ Lighthouse performance score**.
- Integrated **Supabase authentication and database services** to enable user accounts, personal collections, and persistent storage of saved media assets.
- Implemented smooth UI animations with **Framer Motion** and optimized API requests, improving perceived UI responsiveness by approximately **30%**.
- Designed the platform as a **Progressive Web App (PWA)**, enabling installation on desktop and mobile devices with improved load performance and offline capability.
- Source Code: github.com/Dharmendra-Kumar148/zentic

Education

Master of Computer Applications (MCA)

2024

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

Bachelor of Computer Applications (BCA)

2021

Chhatrapati Shahu Ji Maharaj University, Kanpur
